Report On "Earth Day"

Vignan's Institute of Management and Technology for Women's, NSS Unit conducted a "Earth Day" at college campus on **22nd April 2024** at 10 am to 12.30pm.

Earth Day is an annual event celebrated globally to raise awareness about environmental protection and sustainable practices. This report highlights key activities related to the principles of **reuse, reduce, and recycle** carried out during Earth Day celebrations.

1. Reuse

- **E-Waste Collection Drive:**

- Volunteers collected electronic waste (e-waste) items such as old mobile phones, chargers, and cables.
- These items were sorted, repaired if possible, and donated to local NGOs or recycling centers.
- The goal was to extend the lifespan of electronic devices and prevent them from ending up in landfills.

2. Reduce

- **Plastic-Free Campaign:**

- Participants pledged to reduce single-use plastic consumption.
- Alternatives like cloth bags, stainless steel water bottles, and reusable containers were promoted.
- Plastic waste reduction was emphasized through workshops and awareness sessions.

3. Recycle

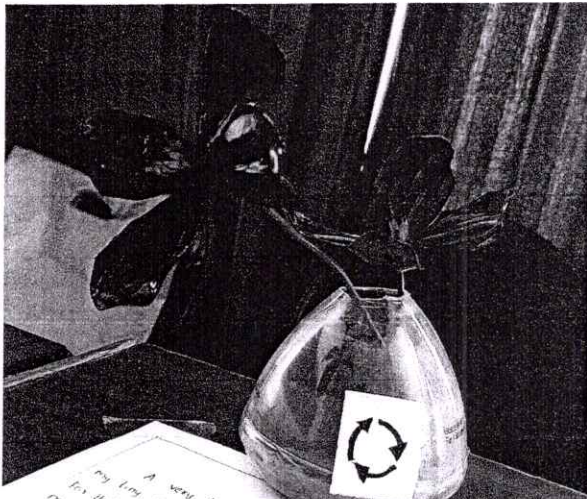

- **Paper Recycling Workshop:**

- Attendees learned about proper paper recycling techniques.
- Used paper, cardboard, and newspapers were collected and sent to recycling facilities.
- Recycling bins were placed strategically across the campus to encourage paper recycling.

Earth Day serves as a reminder that small actions collectively contribute to a healthier planet. By practicing reuse, reducing waste, and promoting recycling, we can make a positive impact on our environment.

A very simple International Earth Day plant is for that. I've made a simple Flowers Vase. The Vase is made with the used plastic bottles, covering the flowers the several part of papers and the vase is filled with the brown sticks, reduced green...

MTW: Earth day
JIYA BATRA
CSE B
THE BAG
No one can say "no" to polythene bags, plastic is one of the most useful products that human beings have invented. We can't just stop using it, or say no to it, but by considering its environmental impact we can reduce it and we should reduce it to minimum, but it won't be easy doing that. So I came up with idea of recycle of plastic bag.
What you'll need:
Around 10 plastic bags
Scissors
Tape / Stapler
Hook holder / Magnet holder
Instructions:
1) Smooth out your bags and cut them into even strips around 1cm or 2cm wider.

Report on Awareness Program on Girl Child Education

An awareness program on "Girl child education" is held on 19th January at Keesara village, scheduled create awareness on girl child education in the society. This program we can conduct under the part of National Youth Week, Nehru Yuva Kendra.

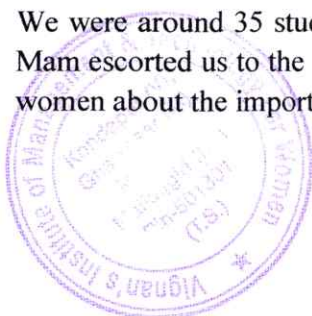

Girls' education goes beyond getting girls into school. It is also about ensuring that girls learn and feel safe while in school; have the opportunity to complete all levels of education, acquiring the knowledge and skills to compete in the labor market; gain socio-emotional and life skills necessary to navigate and adapt to a changing world; make decisions about their own lives; and contribute to their communities and the world.

The event was inaugurated with Smt. Madhavi garu serpunch of keesara welcome ceremony.

The event was conducted at Keesara. It took around 15min from our college to reach the venue.

We were around 35 students from our college with participants and co-ordinators and our P.T Mam escorted us to the venue. We showed enthusiastic participation in giving awareness to the women about the importance of girl child education with the help of flashmob and skit.

Report On "Road Safety"

Vignan's Institute of Management and Technology for Women's, NSS Unit conducted a "Road Safety" at Ghatkesar on 29th December 2023 at 10 am to 12.30pm. The Program was successfully organized with the help of Principal and NSS Programme Officer.

Dr. G. Apparao Naidu, Principal of VMTW, emphasized the need of knowledge on road safety measures when riding a vehicle in order to improve road safety measures. He also highlighted the consequences of reckless driving on several lives. Some of our Volunteers had met the members who were travelling on the road and gave some precautions about road safety like wearing helmet, don't use phone while driving, don't drink and drive, drive very slow and follow traffic rules, due to which accidents are likely to occur. They met the people and distributed the pamphlets and made them aware of importance of Road Safety and effect of accidents. Most of the villagers showed a great interest towards Road Safety and they gave an assurance that they will follow the traffic rules while travelling. The people were very interactive and supportive when we were explaining them. Students participated actively in the program, and its success was assisted by the Principal, department HODs, professors, NSS Volunteers, and students.

After the event we along with our NSS Program Officer went around to admire the beauty of Shilparamam. This art and craft village emphasizes the conservation of traditional heritage, culture as well as craft. The place is ideal to spend some quality time here admiring precious art work and at the same time going through a unique shopping experience. It is a tribute to all the traditional and cultural artisans of Telangana.

The overall experience of participating in the NYK youth festival was fabulous. It encouraged us to come forward and take part in more cultural events which will help in our selfgrowth and development. Such events insist on creative thinking and help us to overcome our fear. It was a pleasant experience to attend the event.
