## Report on Signature Day

All college students look forward to Signature Day as a memorable event. It is a day when the graduating class gets to leave their mark on the college campus by signing their names on a designated wall.

The event was held at Vignan's Institute of Management and Technology for Women on 15<sup>th</sup> February 2020. The atmosphere was festive, with students wearing colorful clothes and carrying markers to sign their names. The students were invited to sign their names on the designated wall. The wall was covered with a blank canvas, waiting to be filled with the signatures of the graduating class. The students eagerly picked up their markers and started signing their names, taking care to make their signatures stand out. As the students signed their names, they took the opportunity to catch up with old friends and take photos with each other. The atmosphere was one of joy and camaraderie, as the students celebrated the end of their academic journey and looked forward to the next chapter of their lives. The event was a huge success, and everyone had a great time.

## Report on Bathukamma making competition

Bathukamma is a flower festival celebrated in Telangana. Each year, the festival is celebrated for nine days according to the Telugu calendar. This colorful Telangana Flower Festival, which symbolizes culture and identity, was celebrated with splendor and enthusiasm in the nature of the campus at Vignan's Institute of Management Technology for Women on October 5<sup>th</sup> 2019, at 11:00 a.m. On the occasion of Bathukamma we have organized bathukamma making completion for students. Female staff and students decorated the site with beautiful exotic flowers, and the celebration represented the excellence of nature, the united spirit of VMTW.

All the students and staff actively participated in the process of making bathukamma. And all the female staff and students performed the Bathukamma Dance. We immersed Bathukamma in a pond because this festival celebrates the unique relationship between the earth, water, and humans. This helps strengthen the pond and retain more water.
