Speaker started the programme by focusing on higher education which includes World class research with high quality teaching with special focus on research. He spoke about Vision which tell you where you want to go and mission which tell you where you are right now and what is the direction of moving towards the vision and how you are going to achieve it. Also, vision defines the end game and mission is roadmap that will take you to there. PEOs (Programme educational outcomes) should be derived from mission.

### Implementation of OBE, Mapping & Attainment of COs and POs,

Speaker briefed on key terms in OBE which are Vision, Mission, Goal, Objective, Outcome, PEO's, Graduate Attributes(GA), POs, COs, and COBs. Objective is teacher centered and Outcome is student centered. PEOs describe what graduates are expected to gain in his graduation. Skill, knowledge and attitude together form OBE. Employers expect life skills, employability skills, management skills, technical skills and discipline skills from the students

## Mapping & Attainment of COs and Pos.

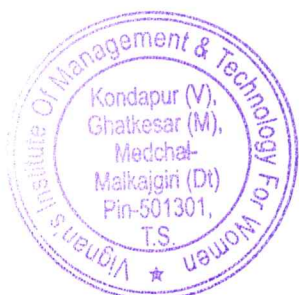

Discussions continued on Programme Educational Objectives, Programme Outcomes, Course Outcomes and Blooms Taxonomy. PEOs are the expected achievements of graduates in their career that are expected to achieve during after few years of their graduation. PEOs must be quantifiable, suitable, realistic and attainable. Graduate Attributes (GAs) are prescribed by NBA and programme outcomes should be defined from these GAs. Mapping of PEO & PO and PO & CO is enlightened. Also, about Course Outcomes for each course using action verbs from blooms taxonomy.

## OBE based Teaching Learning

He also covered on teacher perspective and student perspective. These are best seen as specific intentions that include the steps to be taken to achieve our aims as teacher. Outcome describes what learners will be able to do when they have completed the course. For every course 5 to 7 course outcomes should be defined. Course Register should contain the following items; Syllabus, Session plan, attendance, Internal Assessment, Lecture Diary, Weekly Self Appraisal, Student performance and time table. One can use different Teaching Learning Methods depending upon the subject. Various Teaching Learning Methods are: Traditional method, lesson or session, Discussions, Seminars, Problem based, ICT, MOODLE, SWAYAM etc.

Speaker stated that OBE starts with a clear statement of knowledge, skill and attitude the graduate engineer will be able to demonstrate after successful completion of the course. The course or subject CO describes "What is the knowledge student has gained at the end of the course". Speaker suggested to follow Blooms taxonomy while preparing question papers.

Blooms taxonomy has 6 levels. Level-1: Understand, Level-2: Remember, Level-3: Apply, Level-4: Analyze, Level-5: Evaluate, Level-6: Create.
