Some other advantages of using this to prepare a research paper are:

- It is used extensively in the academic/scientific community
- It can be viewed/edited with any text editor
- Its formatting is consistent and automatically employed once set
- The software is free

For academic researchers whose work is not laden with equations or figures, but desire the polished look of a LaTeX document, it is possible to convert word-processed documents into LaTeX files. Technical information regarding the specific functionality of LaTeX and the directions for use can be found in various online and offline resources.

A Report on "One day workshop on Design Patents"

Date: 22-2-2018

Department of Computer Science & Engineering conducted "One day workshop on Design Patents", on 21-2-2018 for Faculty.

Speaker: Dr.R.Praveen Kumar, VITS, Deshmukhi, as the resource person for this one day workshop.

The main objective of this program is to inculcate the knowledge on Design patents, to motivate Faculty, to do and participate in effective research activities.

A design patent is a form of legal protection of the unique visual qualities of a manufactured item. A design patent may be granted if the product has a distinct configuration, distinct surface ornamentation or both. In other words, a design patent provides protection for the ornamental design of something that has a practical utility.

KEY TAKEAWAYS

Design patent application may only include a single claim, according to the United States Trademark and Patent Office.

Filing for a design patent costs less than filing for a utility patent.
