List of Workshops-Seminars Conducted for the AY: 2019-20

S.NO	Name of the Event	Date From – To	Page No
RESEARCH METHODOLOGIES			
1	A One Week FDP on Advanced Machine Learning Models using Python	03/08/2020 To 07/08/2020	3-5
2	One week FDP on Making a Scientific Research Documents Using LATEX	13/07/2020 To 17/07/2020	6-10
3	Five Day FDP on Block chain Technology & its Applications	29/06/2020 To 03/07/2020	11-15
4	A Workshop on Analysis of Graphs in Research Papers	14/02/2020 To 14/02/2020	16-22
5	Seminar on Artificial intelligence in Research and Development	03/01/2020 To 03/01/2020	23-30
6	A Two Day Workshop on Curriculum and Assessment Methods at UG and PG levels	24/10/2019 To 24/10/2019	31-38
INTELLECTUAL PROPERTY RIGHTS(IPR)			
7	A View on management of Intellectual Property Rights for Academicians	27/08/2020 To 27/08/2020	39-43
8	One day Workshop on Basics of IPR & Indian Patent filing Procedure	13/12/2019 To 13/12/2019	44-53
9	National seminar on Enforcement of Intellectual Property Rights	29/08/2019 To 29/08/2019	54-59
10	A WorkShop on How to Manage and Intellectual Property Portfolio/ IP Formulate	19/07/2019 To 20/07/2019	60-65
ENTREPRENEURSHIP			
11	How to Start SSI Unit	07/11/2019 To 09/11/2019	66-74

**A Report on A National Level One Week FDP
On
"Advanced Machine Learning Models using Python"**

Date: 10-08-2020

Department of Computer Science & Engineering conducted **A National Level One Week FDP on Advanced Machine Learning Models using Python**", from 03-08-2020 to 07-08-2020, for Faculty, Researchers and students.

Speaker: Dr. D.V. Ramana, Data Strategist-Consultant, Wissen Infotech, Hyderabad, as the resource person for this one week FDP session.

The main objective of this program is to inculcate the knowledge on latest technologies of **Advanced Machine Learning Models and python**, to motivate Faculty, Researchers and students to do and participate in effective research activities.

Coordinators: Dr S. RANGA SWAMY, Associate Professors, Mr. R. Krishna Nayak, Assistant Professor, from CSE Department acted as Coordinators for this FDP.

Total 120 Number of members had participated in the FDP. This FDP session had provided an excellent opportunity to learn about **Advanced Machine Learning Models and python** to all the participants.

Date & Time: The FDP was conducted from 03-08-2020 to 07-08-2020 at 06:00 PM-07:00 PM

We would like to thank our honorable Chairman Sri Dr. L Rathaiah garu, CEO Sri B. Shraavan garu, Principal Dr. G. Apparao Naidu garu and Smt. Indrani garu, HoD of CSE for their support for successful completion of one week FDP.

The Faculty, Researchers and students participants felt very happy for attending the program and most of them given excellent in feedback.

Programme Report

Name of the Programme : A Workshop on "Analysis of Graphs in Research Papers"

Organized by : Department of CSE

Schedule dates : 14-02-2020

Resource Person : Mrs. Aruna

Assist prof, SNIST, Hyderabad

Email: aruna@snist.in

Objective of the Program

- The main objective this workshop on "Analysis of Graphs in Research Papers" is to make the faculty to get familiarize, This workshop aims at bringing together researchers and practitioners from different fields (including, but not limited to, Digital Libraries, Information Extraction, Machine Learning, Semantic Web, Knowledge Engineering, Natural Language Processing, Scholarly Communication, and Bibliometrics) in order to explore innovative solutions and ideas for the production and consumption of Scientific Knowledge Graphs (SKGs). She explained for the submission of papers covering, but not limited to, one or more of the following topics:
- Methods for extracting entities (methods, research topics, technologies, tasks, materials, metrics, research contributions) and relationships from research publications
- Methods for extracting metadata about authors, documents, datasets, grants, affiliations and others.
- Data models (e.g., ontologies, vocabularies, schemas) for the description of scholarly data and the linking between scholarly data/software and academic papers that report or cite them
- Description of citations for scholarly articles, data and software and their interrelationships

ASH
PRINCIPAL
Vignan's Institute of Management & Technology For Women
Kondapur(V), Ghatkesar(M), Medchal-Malkajgiri(D)-501301

- Applications for the (semi-)automatic annotation of scholarly papers
- Theoretical models describing the rhetorical and argumentative structure of scholarly papers and their application in practice
- Methods for quality assessment of scientific knowledge graphs
- Description and use of provenance information of scholarly data
- Methods for the exploration, retrieval and visualization of scientific knowledge graphs
- Scientific claims identification from textual contents
- Automatic or semi-automatic approaches to making sense of research dynamics
- Content- and data-based analysis on scholarly papers
- Automatic semantic enhancement of existing scholarly libraries and papers
- Reconstruction, forecasting and monitoring of scholarly data
- Novel user interfaces for interaction with paper, metadata, content, software and data
- Visualisation of related papers or data according to multiple dimensions (semantic similarity of abstracts, keywords, etc.)

Mrs. Aruna is delivering her Content on Research papers

Objective of the Event:

The Objective of this seminar is to make use of Artificial Intelligence and to make the students to get familiarize, how AI ruling the world. With an intent to tell the students about the scope of AI in the current day technological advancements. It's a behaviour of machines which is apparently intelligent. It is also known as study of intelligent agents: any device that perceives its environment and takes actions that maximize its chance of success at some goal. "Learning" & "Problem solving" are the capability of an artificially intelligent machine. The whole study related to Artificial intelligence concern about the beneficiary and safety features of the system associated. While developing an algorithm for AI the risk management is mandatory. With our AI workshop program one can easily get a kick start in this particular field of technology.

Outcomes of the Event:

After completion of the Seminar on "**Artificial Intelligence in Research and development**", the students are expected to: Researchers use AI-based algorithms to search databases of molecules and find effective molecules with desired properties. Such an algorithm may be able to search databases of millions of molecules in a fraction of the time it would take an expert scientist

Creating a technological foundation for trustworthy AI technologies, especially trustworthy machine learning (ML) technologies. Modern AI and ML systems are currently brittle, can have unexpected behaviors that are unsafe, and present new software security risks. Despite these challenges, modern ML capabilities will be increasingly woven into our society, economy, and global military systems in the years ahead. We can look to past decades for a powerful lesson on what happens when security is not sufficiently prioritized: security was not a leading concern during the creation of information technology infrastructure, and today we face recurring cybersecurity challenges as a result. We must approach AI technologies differently, focusing on security early and broadly. To that end, we will grow our work substantially in AI security, safety, and resilience – and invest to mature AI engineering as a discipline. Our focus will particularly include trustworthy AI decision-making, basic research in machine understanding, secure use of AI technologies as part of larger integrated systems, and robust ML methods. This work will also provide a

foundation for AI applications that continue to preserve human accountability in military operations.

- Understand Artificial Intelligence in broader range
- Understand how AI Applications are solving the current day problems
- Analyze the real world problems where AI could be applied.
- This workshop will be give an overview of many concepts, techniques, and algorithms in machine learning, beginning with topics such as classification and linear regression and ending up with more recent topics such as working with neural network, network training and adaptive training etc.

Feedback/Suggestions:

- More number of Seminars on similar advanced technologies
- Nice delivery of content made me to stick to entire session to listen. Nice one.
- One day is insufficient to learn both the complete concepts

Email: bhaskarcese@cmrtec.in

N. Bhaskar

Objective of the Program

- The main objective this Workshop on "Curriculum and Assessment Methods at UG and PG levels" is to make the students to get familiarizes about the assessment methods.
- The principles that have a direct bearing on the curricula for different levels of higher education include:

PRINCIPAL
Vignans Institute of Management & Technology For Women
Kondapur (V), Ghatkesar (M), Medchal-Malkajgiri (Dt.)-501301
Telangana State

- i. Recognizing, identifying, and fostering the unique capabilities of each student to promote her/his holistic development;
- ii. Flexibility, so that learners can select their learning trajectories and programmes, and thereby choose their own paths in life according to their talents and interests;
- iii. Flexibility, so that learners can select their learning trajectories and programmes, and thereby choose their own paths in life according to their talents and interests;
- iv. Multidisciplinary and holistic education across the sciences, social sciences, arts, humanities, and sports for a multidisciplinary world;
- v. Emphasis on conceptual understanding rather than rote learning, critical thinking to encourage logical decision-making and innovation; ethics and human & constitutional values, and life skills such as communication, teamwork, leadership, and resilience;
- vi. Extensive use of technology in teaching and learning, removing language barriers, increasing access for Divyang students, and educational planning and management;
- vii. Respect for diversity and respect for the local context in all curricula, pedagogy, and policy;
- viii. Equity and inclusion as the cornerstone of all educational decisions to ensure that all students are able to thrive in the education system and the institutional environment are responsive to differences to ensure that high-quality education is available for all. ix. Rootedness and pride in India, and its rich, diverse, ancient, and modern culture, languages, knowledge systems, and traditions.

Outcomes of the Workshop:

After completion of the Workshop on "Curriculum and Assessment Methods at UG and PG levels", the students are expected to:

PRINCIPAL
Vignans Institute of Management & Technology For Women
Kondapur (V), Ghatkesar (M), Medchal-Malkajgiri (Dt.)-501301
Telangana State

VIGNAN'S INSTITUTE OF MANAGEMENT AND TECHNOLOGY FOR WOMEN

Sponsored by Lavu Educational Society, Approved by AICTE, New Delhi & Affiliated to JNTUH, Hyderabad.
Kondapur (V), Ghatkesar (M), Medchal - Malkajgiri (Dt) - 501 301 Phone: +91 96529 10002/3

The graduate attributes include capabilities that help broaden the current knowledge base and skills, gain and apply new knowledge and skills, undertake future studies independently, perform well in a chosen career, and play a constructive role as a responsible citizen in society. Graduate attributes are fostered through meaningful learning experiences made available through the curriculum and learning experience, the total college/university experience, and a process of critical and reflective thinking.

Total Participation: 95

Feedback:

- It would be really a fabulous session that I have attended so far.
- Nice delivery of content made me to stick to entire session to listen. Nice one.
- For the first time I got to know about Curriculum and Assessment Methods

About Event:

Intellectual Property Right plays a key role in gaining advantages position to promote economic growth of our nation. India enjoys a large asset of R&D personnel and infrastructural facilities. Scientists and policy makers need more information, orientation and facilities for protecting the

Telangana State

products of intellectual prowess of Indian Scientists. Hence this workshop was organized to sensitize about the IPR to the faculty and students.

Content of the Event:

- Intellectual Property Rights (IPRs) - An Introduction with need of its protection
- Copyright and Trademark Management in India with case studies and Ethical Issues
- Compulsory licensing and Bolar Exemption in India and Patenting
- Procedure of Patent filing, Commercialization of patents
- Patent System in India and National Biodiversity - Biotechnological inventions
- Tools for Patent Searching - Panel Discussion on Life Science Inventions

AS

Outcomes of the Workshop:

- The young researchers will get a glimpse and idea of various graphical techniques available at their disposal and they can identify which graphical technique is to be used for which purpose.
- The work performed in research paper will bring conceptual clarity to the researchers about graphs and their usage areas.

Total Participation: 60

Feedback:

- It was really appreciated hearing about your creative process and it has helped me to feel more confident in jumping into doing more elaborate visualizations and helped me to consider how to tweak my graphic design process slightly to serve data visualization.
- such a great session, really comprehensive and appropriate for lots of experience levels.
- I learned a lot, and as a budding scientist am excited to implement these concepts to my own research

Department of Electronics and Communication Engineering
A Report on
“Basics of IPR& Indian Patent filing Procedure”

Date: 15-12-2019

Department of Electronics and Communication Engineering conducted seminar on – “Basics of IPR& Indian Patent filing Procedure”, on 13th December 2019 for Faculty, students, and Researchers.

Speaker Dr.Samiran Chatterjee, Professor, ECE Dept., VMTW, Hyderabad.

A total of 91 members participated in the seminar. This seminar session provided an excellent opportunity to learn about IPR, Patents and the patent filing procedure.

Date & Time: The seminar was conducted on 13-12-2019 at 10:00 AM–3:30 PM

We would like to thank our honorable Chairman Sri Dr. L Rathaiah Garu, CEO Sri B. Shravan, Principal Dr. P. Sudhakar Rao and Mr. Vijay Kumar R. Urkude, HOD of ECE for their support for successful completion of seminar.

All the participants felt very happy for attending the program and most of them given excellent in feedback.

The speaker explained that **patent** is a type of intellectual property that gives its owner the legal right to exclude others from making, using, or selling an invention for a limited period of time in exchange for publishing an enabling disclosure of the invention. In most countries, patent rights fall under private law and the patent holder must sue someone infringing the patent in order to enforce their rights. In some industries patents are an essential form of competitive advantage; in others they are irrelevant.

The procedure for granting patents, requirements placed on the patentee, and the extent of the exclusive rights vary widely between countries according to national laws and international agreements. Typically, however, a patent application must include one or more claims that define the scope of protection that is being sought. A patent may include many claims, each of which defines a specific property right.

The word *patent* originates from the Latin *patere*, which means "to lay open" (i.e., to make available for public inspection). It is a shortened version of the term *letters patent*, which was an

PRINCIPAL
Vignan's Institute of Management & Technology For Women
Kondapur (V), Ghatkesar (M), Medchal - Malkajgiri (D) - 501301
Telangana State

open document or instrument issued by a monarch or government granting exclusive rights to a person, predating the modern patent system. In modern usage, the term *patent* usually refers to the right granted to anyone who invents something new, useful, and non-obvious. A patent is often referred to as a form of intellectual property right, an expression which is also used to refer to trademarks and copyrights, and which has proponents and detractors.

The speaker explained how to file the patent in detail in the following steps :

Procedure for obtaining a patent in India has steps of capturing your idea for creating complete invention disclosure, conducting a patentability search, drafting a patent application, filing the application, publication of application, filing a request for examination, examination, responding to objections, and grant of the patent.”

- Steps and Procedure for Obtaining a Patent in India
- Step 1: Going from idea to complete invention disclosure
 - Step 2: Patentability search (optional step)
 - Step 3: Patent drafting/writing.
 - Step 4: Filing patent application
 - Step 5: Publication of application
 - Step 6: Request for examination (RFE)
 - Step 7: Response to objections
 - Step 8: Grant of patent

The speaker concluded by giving suggestions to the faculty and research scholar that if they follow the above step carefully, they can file the patent very easily.

Conceptual framework of social entrepreneurship, Difference between Entrepreneurship and social entrepreneurship, Different small business ideas and case studies will be presented, Three best business ideas will be selected and promoted towards the regional level and then the National level competition. In addition, the corresponding author of each paper, acting on behalf of all the authors of that paper, must complete and sign a Consent-to-Publish form. The corresponding author signing the copyright form should match the corresponding author marked on the paper. Once the files have been sent to Springer, changes relating to the authorship of the papers cannot be made. He had given an important message i.e.,

Note that the paper size limit must be respected. Camera-ready papers that do not comply with the page limit when formatted using the LNCS style may be rejected.

Total Participation: 28

Feedback:

- It would be really a fabulous session that I have attended so far.
- Nice delivery of content made me to stick to entire session to listen. Nice one.

Department of Electronics and Communication Engineering A Report on " HOW TO START SSI UNIT"

Date: 20-10-2017

Department of Electronics and Communication Engineering conducted **seminar on** – “One day seminar on “HOW TO START SSI UNIT”, on 17-10-2017 for Faculty and students,

Speaker: Mr. GADDAM SUDARSHAN, Faculty Member, National Institute for Micro, Small and Medium Enterprises (ni-msme)

A total of 100 members participated in the seminar. This seminar session provided an excellent opportunity to learn how to start SSI unit.

Date & Time: The seminar was conducted on 17-10-2017 at 11:00 AM–12:30 PM

We would like to thank our honorable Chairman Sri Dr. L Rathaiah Garu, CEO Sri B. Shraavan, Principal Dr.P. Sudhakar Rao, Mr.Vijay kumar R.Urkude HOD of ECE for their support for successful completion of seminar.

All the participants felt very happy for attending the program and most of them given excellent feedback.

The speaker explained that the Small Industries Development Organization was established in 1954 on the basis of the recommendations of the Ford Foundation. It has over 60 offices and 21 autonomous bodies under its management. These autonomous bodies include Tool Rooms, Training Institutions and Project-cum-Process Development Centers.

Services provided include:

- Facilities for testing, tool mentoring, training for entrepreneurship development
- Preparation of project and product profiles
- Technical and managerial consultancy
- Assistance for exports
- Pollution and energy audits

It also provides economic information services and advises the Government in policy formulation for the promotion and development of SSIs. The field offices also work as effective links between the Central and State Government

PRINCIPAL

Vignan's Institute of Management & Technology
Kondapur (V), Ghatkesar (M), Medchal-Malkajgiri (Dt)-501301
Telangana State

Government of India to promote small and budding entrepreneurs of post independent India, decided to establish a government agency which can mediate and provide help to small scale industries (SSI). As such they established the National Small Industries Corporation with objectives to provide machinery on hire purchase basis and assisting and marketing in exports. Further, SSIs registered with NSIC were exempted from paying Earnest money and provided facility of free participation in government tendered purchases. Also, for training persons the training facilities centers and for aiding in modernizing the small industries several branches of NSIC were opened up by government over the years in several big and small towns, where small industries were growing Relevant queries were arising from the side of students and faculty delegates. They got justified answers from the speaker.

NSIC also helps in organizing supply of raw materials like coal, iron, steel and other materials and even machines needed by small scale private industries by mediating with other government companies like Coal India Limited, Steel Authority of India Limited, Hindustan Copper Limited and many others, who produce this materials to provide same at concessional rates to SSIs. Further, it also aids small scale industries by taking orders from Government of India owned enterprises and procures these machineries from SSI units registered with them, thus providing a complete assistance right from financing, training, providing raw materials for manufacturing and marketing of finished products of small-scale industries, which would otherwise not be able to survive in face of competition from large and big business conglomerates. It also helps SSI by mediating with government owned banks to provide cheap finance and loans to budding small private industries of India.

Nowadays, it is also aiding by setting up incubation centers in other continents and international technology fairs to provide aspiring entrepreneurs and emerging small enterprises a platform to develop skills, identify appropriate technology, provide hands-on experience on the working projects, manage funds through banks, and practical knowledge on how to set up an enterprise.

The speaker concluded by briefing the above points and accepted the queries from the audience and given qualification.
