Name of Coordinator : S.Dilli Babu
Date & Time : 19-12-2019 to 21-12-2019
10:00AM to 4:00PM

Objective of the Event:

The Main objective of Game Theory and Practices using Artificial Intelligence is to analyze strategic interactions, optimize resource allocation, design effective mechanisms, perform game-theoretic analysis, and develop intelligent agents for multi-agent systems.

Outcomes of the Event:

The outcome of combining game theory and AI is to leverage the insights and techniques from both fields to enhance decision-making, optimize resource allocation, design effective mechanisms, gain insights into complex systems, and develop intelligent agents for

multi-agent systems. These outcomes can have applications in various domains, including economics, social sciences, engineering, or computer science.

After completion of the workshop the students can develop intelligent agents that make better strategic decisions in competitive or cooperative scenarios. These agents can learn optimal strategies, adapt to changing

Environments, and exploit the weaknesses of opponents. The outcome is more effective decision-making in game-like situations, leading to improved performance, higher rewards, or increased chances of success.

Total 103 Number of members and 6 numbers of Staff had participated in the workshop.

This workshop session had provided an excellent opportunity to learn about **GAME THEORY AND PRACTICES USING AI** to all the participants.
