## REPORT

A program was organized by the department of EEE. The well-known personality Dr. Samakya Self-Defense & Yoga Trainer was addressed to the students. The main motto of the program is to live in a restless age—an age where the rapid change in technology is causing a breakdown of values and fragmentation of our personality. The result of this is tremendous psychological disturbances, stress and tension. The latest studies on stress from the American Psychological Association show that 69 percent of the U.S. adults surveyed reported experiencing physical symptoms of stress during the previous year. Additionally, increased stress in the workplace is contributing to rising healthcare costs for employers. Happiness seems to be eluding us and we are constantly seeking answers. Sahaja Yoga meditation is a unique solution to many problems we face in life. Sahaja Yoga is different than other yoga because this begins with self-realization instead of this being the unobtainable dream of a distant goal. This can be easily learned and mastered by regular meditation and knowing the foundation of our being which is present as The Subtle System within all of us. Around 102 students are attended.

## REPORT:

Mrs. Naga Prashanthi, Advocate as the resource person delivered the speech on “**Social Injustice’s of Women in India**” Gender inequality in India refers to the health, education, economic and political inequalities between men and women in India. While Indian laws on rape, dowry and adultery have women's safety at heart, these highly discriminatory practices are still taking place at an alarming rate, affecting the lives of many today. In Indian society, women are traditionally discriminated against and excluded from political and family related decisions. Despite the large amount of work women must do on a daily basis to support their families, their opinions are rarely acknowledged and their rights are limited. Total 96 numbers of students were attended.

### Gender Discrimination in India (6 Major Causes)

- Poverty
- Illiteracy
- Lack of Employment Facilities
- Social Customs, Beliefs and Practices
- Social Altitude
- Lack of Awareness of Women

## Report:

The program was organized by the department of CSE. Guest Dr. Venu Madhavi Explained, about the intention of an all-rounded development of individual personality and entrepreneurship can be taught or not has been an argument until today. Therefore, this study was designed to explore the importance of skills to enhance entrepreneurial capacity. The three key skills that researchers examined were communication, leadership and critical and problem-solving skills while entrepreneurial capacity was the dependent variable of this study. Researchers employed a qualitative method using interview protocol as an instrument to conduct in-depth interviews. The results revealed that critical thinking and problem-solving skills is the most significant soft skills to assist entrepreneurs to improve their assist entrepreneurs not only to compete in the formal labor market but also has the potential to reduce youth unemployment, drive economic growth and reduce poverty. The overall results are successfully contributed to a growing body of research by suggesting that soft skills, namely communication, leadership, critical thinking and problem-solving skills associated with entrepreneurial success are malleable and can be trained through higher education institutions. In this program around 160 students and faculties are attended.
