## REPORT:

Department of Basic Sciences and Humanities conducted a one-day **Webinar** on "NEVERGIVE UP" failures are stepping stones for success on 06-12-2021 for faculty and students. **Ms. Hari Chandana Dasari, IAS, Narayanpet, Telangana**, attended as resource person. Failures teach us the best lessons in life. One cannot deny the fact that life is indeed a slowstruggle. At times, one wonders if they can make it until the next day or not. In this session we will know failures are stepping stones for success; one learns that life gives a taste of both failures and success.

A person cannot always be successful in life, and none have achieved it so far. That is because failures tend to attack when nobody expects it in different forms. It can be in the form of official or medical issues. Even a successful person tends to fail after succeeding immensely in life. One must understand that failures highlight the drawbacks in the preparation. It is like a student appearing for an exam and scoring bad marks. Friends, we too keep getting two or four from such situations in our life. Many times our confidence staggers before doing any task or before solving any problem and we give up without trying. Many times we give up trying in case of failure in one or two attempts. While it may be that after some effort, the work gets completed or the problem is resolved. If you want to achieve success in life, then despite repeated failures, you should not stop trying until successes are achieved.

No one welcomes failure. However, after failure, it is known what success is and what its realvalue is. So Success and failure belong to our life also. We can say a success technique which considers failures are stepping stones for success.

Total of 165 Students had participated in the webinar. This webinar session had provided anexcellent opportunity to know, the efforts that we pull before trying, that should be our last attempt and we will get success in it.
